[Digital CV](#)

A 24-year-old Software Engineering student at Braude College, driven and eager to expand my technological expertise. A quick learner with strong problem-solving skills, excelling in both independent work and team collaboration.

EDUCATION

Braude

2021-2025-present

B.Sc. Software Engineering
two semesters left

SKILLS

o Python, Java, C, C#, Assembly, JavaScript, HTML, CSS
o Web & Software Development: Node.js, Next.js, React, Preact, Scene Builder (GUI), Server-Client Communication
o Databases(SQL and NOSQL) & Optimization
o Creating models from scratch, ML/DL algorithms
o Tools & Technologies: Git (Version Control), Testing Tools (Jubula), Deployment (Vercel, Heroku), Operating Systems (Windows, Linux)

PROJECTS EXPERIENCE

PARK MANGMENT SYSTEM

Developed a Park Management System in Java and MySQL with secure access, automated scheduling, and a JavaFX UI.

WHATSAPP CHAT BOT

Built a WhatsApp chatbot with CRM integration, automated interactions, conversation storage in Google Sheets, and notification/reminder features, supporting both official and unofficial APIs.

SOCIAL NETWORK APP

Built a social networking platform with React, JavaScript, and NoSQL, integrating auth, real-time messaging, notifications, and a follower system, deployed on GitHub and Vercel.

FINAL DEGREE PROJECT

Working on my final degree project, developing a deep learning model for visual speech recognition, predicting spoken sentences from lip movements using neural networks on video data without audio.
